The method of compiling Shipping Returns whereby the total tonnage entered and cleared at each port has been amalgamated, and the totals so arrived at published as representing the Shipping trade of the Colony with the countries mentioned in the Return, so enormously increases the aggregate tonnage Inwards and Outwards that this year a direct Shipping Return has been prepared to show the actual tonnage entered and cleared from and for the countries named therein.

NOTE.—The above Table shows only the quantity and value of the Timber exported as entered at the Customs, but there is reason to believe that the figures are considerably under the truth, as there have been large shipments, especially of cedar, to the Southern Colonies, which have not been reported.

* Previous to the year 1878, the Customs returns only show the Number and Value of Cedar Logs exported, while in the returns for that and subsequent years the quantity is stated in superficial feet.

NOTE.—The amount actually realised bears but a small proportion to the amount sought to be recovered; but it must be borne in mind that in many cases the defendant, on a levy being made, becomes Insolvent, and any property seized passes to the Official Trustee for the benefit of the Creditors, and consequently no sale by the Sheriff takes place. Many also of these writs of *fieri facias* were for large amounts, the suitors holding mortgages over and being in possession of the property seized, and were merely lodged for the purpose of obtaining the Sheriff's title for the conveyance of the interest—the purchase money being nominal.

* ARTHUR E. HALLORAN, Sheriff of Queensland.
